**Objective:** To obtain a full stack web developer position in a dynamic and innovative company where I can leverage my skills in HTML, CSS, JavaScript, React, and Node.js to develop cutting-edge web applications and contribute to the growth and success of the organization

## Education:

- Antelope Valley College, 2014 - Completed courses in English composition, mathematics, and computer science
- UCLA Extension Full Stack Web Development course, Completed April 5th, 2023

## Skills:

HTML, CSS, and JavaScript fundamentals  
Front-end frameworks such as React, Angular, or Vue.js  
Back-end technologies such as Node.js, Express.js, or Django  
Relational and non-relational databases such as MySQL, PostgreSQL, MongoDB, or Firebase  
Version control systems such as Git and GitHub  
RESTful API development and integration  
User authentication and authorization using OAuth, JWT, or Passport.js  
Responsive web design and cross-browser compatibility  
Testing frameworks such as Jest, Mocha, or Jasmine  
Deployment and hosting platforms such as AWS, Heroku, or Netlify

## Experience:

Recycling Inc - Lancaster, CA

April 2020 to Present

Web Development Coordinator

Assist in the development and maintenance of Recycling Inc Lancaster's website, ensuring it is up-to-date and user-friendly

Educate customers on the latest recycling regulations and how to use the website to schedule recycling services and payments

Provide administrative and analytical support, including answering phone calls and responding to customer inquiries via email and chat

Collaborate with development team to identify and troubleshoot website issues and make improvements to the user interface and functionality

Operate forklifts as necessary to support recycling operations, ensuring the safe operation of equipment and following health and safety policies and processes at all times.

Mike Bloomberg 2020 - Los Angeles, CA

January 2020 to March 2020

Engaged in direct voter contact via phone-banking and SMS contact, providing excellent customer service to potential supporters and answering their questions about Mike Bloomberg's campaign platform

Compiled, categorized, and organized voter and volunteer information using digital tools and software, ensuring that data was accurate and up-to-date

Created digital content, such as social media posts and email newsletters, that could be shared with other potential Bloomberg supporters to educate them on campaign issues and encourage them to take action

Worked collectively with members of my team to ensure that tasks were completed on time, leveraging digital project management tools and techniques to ensure efficient collaboration and communication

Leveraged Full stack web development skills to create and maintain a user-friendly campaign website, ensuring that potential supporters could easily find information and take action in support of Mike Bloomberg's campaign.

## Certifications:

- Full Stack Web Development, UCLA Ext, [April 5, 2023]
